Spain, your best option!

We have joined together a group of enthusiastic professionals to offer high quality healthcare solutions to international patients or any other interested user.

We are proud of our new partnership with MTA which consolidates our international expansion.

Each case, every patient is unique and is always for us in the center of our activity.

Supported by a group of prestigious doctors practicing state of the art medicine, the best clinics with modern and innovative technology, we bring you access to the most sophisticated treatments, rehabilitation or residential care.

Our job and mission is to offer healthcare professionals, Facilitators, Insurance companies and Corporations, efficient financial options and alternatives for them and their patients.

Our aim is to tailor for patients and relatives an enjoyable experience combining medical treatment with culture and discovery, supporting all their needs through their journey.

Spain like very few other countries offers a destination to discover, a worldwide recognized hospitality and a state of the art healthcare system.

Take care of your health, come to Europe, discover Spain!

WHAT WE DO

GyS is totally involved in Medical Tourism, on both sides: the medical organization and the touristic, receiving and accompanying the patient during his whole stay in Spain helping him through the complete treatment chosen.

The patient is the center of each of our activities

Our partners are Quality Certified (JCI, ISO, EFQM...etc) and they apply strict safety procedures to the patient along with upscale health treatments.

We can also provide a selection of Rehabilitation Centers and Assistance Residencies where patients can extend their stay until their full recovery.

WHY SPAIN?

- 1** Top surgery centers and hospitals
- 2** Latest modern technology
- 3** Highly trained and accredited doctors
- 4** Customized treatments
- 5** Comprehensive personalized care
- 6** Affordable prices
- 7** Value added vacation

Spain offers a wide variety of first class medical treatments.

Our medical infrastructure and technology are among the highest ranked within the European Community.

Doctors and treatments in several specialties are internationally recognized as pioneers or leaders.

Spain has a lot to offer as a destination and receives over 40 million tourists per year.

As a destination, it combines an offer of sun, beaches, snow, mountain, historical cities, geographic discovery and cultural enrichment.

Tourism in Spain (with direct and indirect revenue generation) is the highest contributor in percentage to our GDP.

Within the last few decades billions have been and are still invested in this industry ensuring for Spain a modern and complete infrastructure (transports, highways, hotels, public services for tourists ...etc.).

For the same reason, the majority of our population is educated in cultural diversity acceptance and the practice of a second language (most likely English) is rather common.
